# Memorandum

**Date:** December 1, 2015

**To:** Honorable Chairman Jean Monestime  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor

**Subject:** Proposed Ordinance Enabling Electronic Forms of Payment and Modifying  
Various Administrative Procedures for Impact Fee Assessment, Collections and  
Refunds

---

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) adopt the attached ordinance enabling electronic forms of payment and modifying various administrative procedures related to County Impact Fee assessment, collections and refunds as described in Chapters 33E, 33H, 33I, 33J and 33K (Road, Parks, Police, Fire, and Educational Facilities Impact Fee Ordinances) of the Miami-Dade County Code.

## **Scope**

This Ordinance amends administrative procedures related to impact fees which apply countywide.

## **Fiscal Impact/Funding Source**

The proposed ordinance will result in no additional fiscal impact. Programming required to adjust the impact fee system as described below to fee according to date of plan submission and to allow other forms of payment will be absorbed as part of the Department of Regulatory and Economic Resources' (RER's) service level agreement with ITD.

## **Social Equity Statement**

The proposed ordinance is not anticipated to have a specific social equity benefit or burden as described by Ordinance No. 15-83. Administrative changes described below relating to enabling electronic forms of payment may help expedite processes and improve service to all customers. While these changes have the potential to yield positive economic benefits to our customers, a specific benefit is not quantifiable at this time.

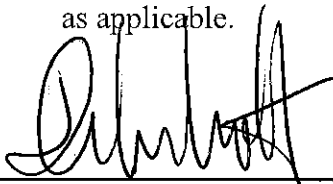

## **Track Record/Monitor**

RER administers the assessment, collection and refund of impact fees on behalf of all County Departments and the School Board at the County's Permitting and Inspection Center. The operation of this facility is overseen by Juliana Salas, P.E., Building Official and Assistant Director for Construction, Permitting and Boards Code Division, RER.

## **Background**

The proposed ordinance amends various administrative procedures related to Road, Parks, Police, Fire, and Educational Facilities Impact Fees to ensure uniform administrative practices in assessment, collection, and refund of said fees. Specifically, this ordinance:

- Addresses industry requests for alternative forms of payment of impact fees, specifically the enabling of acceptance of electronic payments such as credit cards. Because the current ordinance language explicitly restricts forms of payment to cash, personal check, cashier's check, or money order, the County has heretofore been unable to accept credit card and other forms of electronic payment of impact fees. Because electronic payments often come with transactional fees charged by banking institutions, this ordinance also provides a mechanism for the County to recover any costs incurred by the acceptance of electronic payment options.
- Addresses industry requests that assessment of impact fees due be based on the date of plan submittal to Miami-Dade County rather than on date of payment. The code currently specifies that impact fees due are based on the date of payment to the County. A fee-payer's ability to pay the County depends on the County's plan review staff having received the plans and conducted a full review. Impact fee assessments can sometimes require complex calculations and are performed in conjunction with zoning plan review. Because of periodic changes in pricing indexes for the various impact fees, the County often experiences unusually high volumes of impact fee plan submittals as applicants attempt to lock in their fee rates in the days prior to scheduled escalations. In cases of complex projects, plans cannot always be reviewed on the same day. Hence, a clarification in the code that the fee be based on the date of submittal will guarantee that fee-payers will not be penalized by high volumes of plan submittal on the eve of escalation dates.
- Clarifies code language to conform with the current County practice of retaining the administrative fee in cases of refunds or reassessments.
- Clarifies and makes uniform code language regarding the lien and collections procedures to be followed in cases where impact fees are found to have been unpaid. These references already exist in certain impact fee chapters but are either omitted or not uniformly worded in other chapters.
- Clarifies and makes uniform code language regarding refund procedures in each of the various impact fee chapters.
- Clarifies code language relating to the process for appeals of administrative determinations of impact fee assessments.
- Removes the requirement for an annual presentation of an updated Road Impact Fee ordinance and manual. The ordinance will continue to be periodically reviewed and assessed, with recommended changes presented for Board consideration. However, because the most recent road impact fee update covered a multi-year period, reference to an additional annual presentation is not needed.
- Updates names, definitions, and references to the Mayor and to Directors of the various departments involved in impact fee determination, assessment, and collection, as applicable.

Existing development shall also include the maximum level of development activity for which a previous impact fee was paid under the provisions of this chapter. As used in this chapter, the term "lawful land use" shall not include a land use which has been established or maintained in violation of this chapter or applicable municipal codes.

\* \* \*

#### Sec. 33E-6.1. Payment of road impact fees.

\* \* \*

- (b) Payment shall be made in >>a form acceptable to the Zoning Director. The Director may charge a nonrefundable convenience fee to cover any transactional costs imposed by the institution processing the form of payment.

Notwithstanding any other provision to the contrary, payment amount due shall be based on the fee in effect on the date the plans filed with a building permit application are submitted to Miami-Dade County for impact fee assessment.<< ~~[[cash, personal check, cashier's check, or money order payable to Miami-Dade County; however, when a municipality is the permitting authority, payment shall not be made by personal check]].~~

- (e) If the amount of the impact fee paid is found to have been insufficient for any reason, the appropriate County or city building department shall have the authority >>to<< stop all construction authorized by the permit until payment in full is received.
- (f) The County shall have the authority to lien real property for which a Final Certificate of Use >>(C.U.) or Final Certificate of<< ~~[[and]]~~ Occupancy (C.O.) has been issued but for which the correct required road impact fee has not been paid in full. \* \* \*

**Sec. 33E-7. Road impact fee formula.**

\* \* \*

- (b) In the case of development activity involving a change of >>existing<< use and/or magnitude of >>existing<< use in

which a building permit is required, the proposed development shall be required to pay an impact fee only for any increase in the development activity. >>In this case, the<< [[The]] impact fee shall be >>calculated by computing<< the difference between the [[computed]] impact fee for the proposed development activity and the [[computed]] impact fee for the existing development activity as defined in Section 33E-5 >>, less the applicable administrative fee<<. Any building permit which expires or is revoked after the effective date of this chapter and for which a fee has not previously been paid under this chapter shall be required to comply with the provisions herein. No refunds will be given for proposed development activity resulting in a negative fee calculation.

- (c) No impact fee payment shall be required for any applicants seeking development activity for which the computed fee amount under the terms of this chapter is less than fifty dollars (\$50.00).

The above formula shall be used to compute the amount of the fee to be paid using either of the approaches set forth in Section 33E-8 or Section 33E-9, at the election of the feepayer.

- (d) Any change of use, redevelopment or modification of an existing use which requires the issuance of a building permit and which generates additional vehicular trips shall pay a road impact fee based on the net increase in the impact fee above that which would have been required for the previous use.

#### **Sec. 33E-8. Fee computation by adopted schedule.**

The feepayer may elect to allow the County Public Works ~~[[and Waste Management]]~~ Director to use the impact fee schedule set forth below developed pursuant to the formula set forth in Section 33E-7(a). The Impact Fee Per Unit of Development shall be multiplied by the Present Day Cost (PDC) Multiplier for the year in which the fee is paid in accordance with the table in subsection 33E-8(d).

- (a) The following impact fee schedule shall be used by the County Public Works ~~[[and Waste Management]]~~ Director in computing the road impact fee:

\* \* \*

- (c) In determining existing development activity, as defined in Section 33E-5 >>(10)<< ~~[[h)]~~ of this chapter, and the units of proposed or existing development, the County >>Public Works<< ~~[[Regulatory and Economic Resources]]~~ Director shall use the building permit and certificate of use information contained in the records of the Miami-Dade County Regulatory and Economic Resources Department and municipal building code and zoning regulation administering agencies.

\* \* \*

**Sec. 33E-9. Fee computation by independent study.**

The feepayer may elect, either prior to or subsequent to paying the scheduled impact fee (Section 33E-8), to utilize an independent fee computation study pursuant to the formula set forth in Section 33E-7(a). The feepayer shall provide the County Public Works ~~[[and Waste Management]]~~ Director notice of intent to utilize an independent fee computation study prior to, but no later than, the time of ~~[[application for]]~~ >>issuance of<< a building permit. All such studies initiated after the issuance of a building permit shall be completed and submitted to the Public Works ~~[[and Waste Management]]~~ Director within six (6) months of issuance of building permit. Nothing within this section shall allow a building permit for development activity to be issued without the payment of a road impact fee as provided for in Section 33E-6 herein or without an authorized deferral of payment upon acceptance of a letter of credit as provided in Section 33E-6.1 or upon the acceptance of a voluntary lien as provided in Section 33E-18.

- (a) If the feepayer elects to utilize an independent fee computation study, the feepayer shall, at the feepayer's own expense, prepare and present to the County Public Works ~~[[and Waste Management]]~~ Director such a study that shall document the basis upon which the value of each of the components of the fee formula set forth in Section 33E-7(a) was determined. The study shall use a methodology that has been approved by the Public Works ~~[[and Waste Management]]~~ Director. The study shall address the following subjects unless otherwise specified in writing by

the Public Works ~~[[and Waste Management]]~~ Director:

\* \* \*

- (b) The feepayer shall, at the time the independent fee computation study is submitted to the County Public Works ~~[[and Waste Management]]~~ Director, pay to the ~~[[County Department of Regulatory and Economic Resources]]~~ >>Zoning<< Director a nonrefundable independent study administrative cost in the amount set forth in the Implementing Order to be used solely for the processing and review of the independent fee calculation study by the Public Works ~~[[and Waste Management]]~~ Department. This amount shall not be credited against the road impact fee payment and shall not be refunded.
- (c) The County Public Works ~~[[and Waste Management]]~~ Director shall determine if an independent fee computation study:

\* \* \*

- (3) Complies with the methodology approved by the Public Works ~~[[and Waste Management]]~~ Director; and
- (4) Is prepared by an individual or entity qualified to perform Traffic Engineering and Operations Studies in accordance with the standards set forth in Rule 14-75.003 of the Florida Administrative Code.
- (d) Upon approval of the independent fee calculation study by the County Public Works ~~[[and Waste Management]]~~ Director, the fee may be computed based upon the findings of the study using the road impact fee formula set forth in Section 33E-7.
- (e) In the event that the Public Works ~~[[and Waste Management]]~~ Director determines that the conditions described in Section 33E-9(c) have not been fully met by the independent fee study, a letter shall be sent to the applicant identifying the deficiencies in the study that must be corrected and stating an intent to reject the independent fee calculation study unless the deficiencies are corrected. If the County Public Works ~~[[and Waste Management]]~~

Director determines that the deficiencies in the independent fee study have not been corrected within sixty (60) working days from the date of the letter of intent, the Director shall issue a second letter rejecting the independent fee study.

- (f) Any appeals from a decision of the County Public Works ~~[[and Waste Management]]~~ Director to reject an independent fee study because of deficiencies shall be filed with the >>County Zoning<< ~~[[Department of Regulatory and Economic Resources]]~~ Director within 30 days of the decision and shall be reviewed and decided by the County Developmental Impact Committee Executive Council.
- (g) In his annual review of the impact fee ordinance the County >>Mayor<< ~~[[Manager]]~~ may recommend to the Board of County Commissioners that the type of use and fee rates approved pursuant to an independent study prepared under this section be added to or substituted in the impact fee schedule contained in Section 33E-8.

\* \* \*

**Sec. 33E-11. Impact fee benefit districts and trust accounts.**

\* \* \*

- (c) A financial and management report on the impact fee trust funds shall be prepared annually by the County Public Works >>Director<< ~~[[Department]]~~ and submitted to the County >>Mayor<< ~~[[Manager]]~~ within one hundred twenty (120) days of the end of the County's fiscal year.

\* \* \*

**Sec. 33E-12. Impact fee expenditures.**

\* \* \*

- (b) Highest priority for roadway trust fund expenditures shall be for roadway capacity improvements deemed by the Miami-Dade County Metropolitan Planning Organization (MPO) as most needed to serve new development. Such determination by the MPO shall consider recommendation from the County Public Works ~~[[and Waste Management]]~~

Director. In preparation for said recommendation to the MPO, the Director shall solicit and consider recommendations from the various municipalities located in Miami-Dade County. The Director's recommendation is not limited to only County or State designated roadways, but may include municipal roads and select transit capital improvements pursuant to subsection 33E-12(d). Before funds can be allocated or expended for any capacity enhancement projects on local roads within any one Road Impact Fee District, funding for all programmed capacity needs for County arterial and collector roadways, and municipal collector roadways, within said District must have been identified and encumbered, as determined by the Miami-Dade County Public Works ~~[[and—Waste Management]]~~ Director. Trust account funds shall be deemed expended in the order in which they are collected. Policies to be used in scheduling the expenditure of roadway trust funds through the long range transportation plan and short range transportation improvement program shall be set forth in the impact fee manual.

\* \* \*

- (d) Roadway trust funds may be expended on select transit capital improvements provided that the Board of County Commissioners, after recommendation from the Mayor in consultation with the Public Works ~~[[and—Waste Management]]~~ Director and after public hearing, determines that any such transit use of roadway trust funds would be effective as part of the county's strategy for providing roadway capacity within the Urban Infill Area. Roadway trust funds may only be used for select transit capital improvements within the Urban Infill Area. Only impact fees generated from within the Urban Infill Area may be used for select transit capital projects. Transit projects are to be selected for road way trust fund funding on the basis of their expected effectiveness as roadway capacity improvements.
- (e) Each year the County Public Works ~~[[and—Waste Management]]~~ Director shall present to the Metropolitan Planning Organization pursuant to the Organization's procedures for their review and approval, the annual program for expenditure of roadway trust funds for roadway capacity improvements projects, to be included

within the Transportation Improvements Program. After solicitation and consideration of comment from municipalities, the Public Works ~~[[and—Waste Management]]~~ Director shall also recommend priorities for the expenditure of roadway trust fund monies. Trust fund monies, including any accrued interest not assigned in any fiscal year, shall be retained in the trust fund until the next fiscal year, except as provided by the refund provisions of this chapter pursuant to Section 33E-13.

**Sec. 33E-13. Refund of impact fees paid.**

- (a) If a building permit encompassing feepaying development expires or is revoked, >>if an error in the impact fee calculation is discovered, or if the feepayer has paid impact fees in excess of the amount determined by an approved independent fee computation study completed in accordance with conditions set forth in this chapter, then<< the feepayer shall, upon submission of a written request to the County Planning and Zoning Director >>on a form acceptable to the Director<<, be entitled to a refund of the impact fee paid >>, or the appropriate portion thereof,<< except that the county shall retain the general administrative cost portion of the fee >>and any applicable convenience fees<< to cover the cost of the administration of the impact fee calculation, collection and refund. However, no refund shall be provided for impact fees deemed expended pursuant to Section 33E-13(b) or for the cost of completed improvements contributed in-lieu-of-fee.
- (b) Any fee trust funds not expended by the end of the fiscal quarter immediately following six (6) years from the date the fee was paid shall be returned to the feepayer by the County Planning and Zoning Director with accrued interest. Funds shall be expended in the order in which they are collected and shall be deemed expended for purposes of this chapter when a road contract or agreement obligating all or a portion of the payment of said funds shall be approved by Miami-Dade County. ~~[[The impact fee manual shall set forth a procedure to be used for identifying the source of monies expended.]]~~ The feepayer shall be required to submit a written request for refund to the County Planning and Zoning Director before issuance of the refund can be authorized. No refunds of road impact fees will be provided for in the event the feepayer does not

request such a refund prior to the expiration of one (1) year following the six-year period from the date the road impact fee was paid.

- (c) The feepayer may request a refund of road impact fees paid for a development that has been exempted pursuant to Section 33E-14 >> in accordance with the provisions set forth therein<<. The amount of the exemption refund shall exclude the administrative cost portion of the fee >>and any applicable convenience fees<<. ~~[[Application must be made within one (1) year of the issuance of a certificate of completion or a certificate of occupancy for the subject of the exemption and shall be made in accordance with the provisions of the road impact fee manual]].~~

**Sec. 33E-14. Exemptions and credits.**

\* \* \*

- (b) Unless provided for to the contrary in the current effective development order, all development activity which is subject to an existing Development of Regional Impact Development Order adopted pursuant to Chapter 380, Florida Statutes prior to June 4, 1989 shall be exempt from this chapter with regard to development approved by such development order. This exemption provision does not apply to those development orders which may have been revoked or determined to be null and void or to any development not authorized in such development order by Miami-Dade County or another unit of local government in Miami-Dade County issuing such development order. This exemption shall not apply to any additional development regardless of whether or not such additional development constitutes a substantial deviation pursuant to Chapter 380, Florida Statutes. Any Development of Regional Impact development order amended after January 1, 2009, which generates additional vehicular trips above the previously approved development order shall be not be exempt for said additional trips.

\* \* \*

- (e) If an exemption is sought pursuant to Section 33E-14(d)(1), (2), (3), and (4), road impact fees shall be paid prior to the issuance of the building permit. However, the feepayer

shall be entitled to a refund pursuant to this chapter upon submitting a formal application for a refund to and receiving approval from the County Planning and Zoning Director, >>on a form acceptable to the Director<< ~~[[in accordance with the provisions of the manual]]~~.

>>(1)<< Application for a refund under >>Section 33E-14<< ~~[[this section]]~~ shall be made within one (1) year of the issuance of a certificate of completion or certificate of occupancy for the building. Failure to apply for a refund by the feepayer, within the above-referred one-year period shall invalidate the right for a refund under this section.

>>(2)<< Notwithstanding the aforesaid, if an exemption is sought pursuant to Section 33E-14(d)(2), community development corporations as defined in Section 290.033(2), Florida Statutes ~~[[1991]]~~, and community-based organizations as defined in Section 420.602(4), Florida Statutes, that have received assistance from Miami-Dade County or the State of Florida in funding predevelopment costs to provide affordable housing to low and very low income families shall have the option of executing a covenant running with the land, in a form approved by the County Planning and Zoning Director, in lieu of payment of road impact fees prior to the issuance of the building permit. Joint ventures of either a community development corporation or a community based organization with a for-profit developer for the purpose of affordable housing development shall also have the right to execute the aforementioned covenant provided that the proposed affordable housing development for which an exemption is being sought has been approved by the Miami-Dade County Office of Community Development.

- (f) The applicant shall submit a complete application for any exemption from Road impact fees prior to or concurrently with the building permit application. The applicant shall supply all documentation necessary to validate the requested exemption ~~[[as outlined in the road impact fee manual]]~~ along with any additional documentation that may be required by the County Planning and Zoning Director.

**Sec. 33E-15. Appeals of administrative decisions.**

- >>(a) Administrative remedies.<< Decisions of the >>County Public Works Director or the<< County Planning and Zoning Director may be appealed by the feepayer to the County Developmental Impact Committee Executive Council >>for a de novo review<<. Appeals of the decisions of the Executive Council shall be to the Board of County Commissioners ~~[[in accordance with procedures specified in the adopted impact fee manual]]~~. >>If the feepayer appeals the decision of a Director or of the Developmental Impact Committee Executive Council, the decision on appeal shall be deemed a non-final order.<<
- >>(b) Procedure on appeal.<< If a feepayer wishes to appeal an administrative decision of the County Public Works Director, or of the County Planning and Zoning Director >>,<< the feepayer shall first file >>with the Developmental Impact Committee Coordinator<< a notice of administrative appeal on a form >>approved by the Zoning Director<< ~~[[specified in the adopted impact fee manual with the Developmental Impact Committee Coordinator]]~~. All appeals shall be filed within thirty (30) days after the earlier of: (a) the issuance of a written decision by the Public Works Director or the Planning and Zoning Director; or (b) the Planning and Zoning Director's acceptance of payment of the road impact fee. The feepayer shall, when filing an appeal, submit a letter which provides a full explanation of the request, the reason for the appeal, and any supporting documentation.
- >>(c) Proceedings before Developmental Impact Committee.<< The Developmental Impact Committee Coordinator shall schedule the appeal before the Executive Council as soon as practically possible. The Executive Council shall vote to affirm, reject or revise the decision of the County Public Works Director or of the County Planning and Zoning Director. The written decision of the Council shall be mailed certified mail, return receipt requested. Any appeal >>to the County Commission<< ~~[[pursuant to subsection 33-314(C)(1)]]~~ must be filed >>with the Zoning Director pursuant to Section 33-314 of this code<< within thirty (30) days from the date of the receipt of the Council's written decision.

\* \* \*

**Sec. 33E-17. Miami-Dade County Road Impact Fee Manual.**

- (a) ~~[[In not less than sixty (60) days prior to the effective date of this chapter, a]]~~ >>A<< Miami-Dade County Road Impact Fee Manual (the impact fee manual) >>may<< ~~[[shall]]~~ be proposed to the Board of County Commissioners for adoption by resolution. ~~[[The]]~~ >>If proposed, the<< impact fee manual ~~[[shall be used for the administration of this chapter and]]~~ shall contain the following:

- (b) The Mayor or designee shall periodically review the contents of the adopted road impact fee ordinance and the impact fee manual and, if appropriate, make recommendations for revisions to the adopted road impact fee ordinance and impact fee manual to the Board of County Commissioners. ~~[[The Board of County Commissioners shall consider the recommended revision(s) to the Miami-Dade County Road Impact Fee Ordinance and the road impact fee manual at least once every twelve (12) months.]]~~ The recommendations and the Commission's action shall ensure that the benefits to a fee-paying development are equitable in that the fee charged to the paying development shall not exceed a proportionate share of the costs of mitigating road impacts, and the procedures for administering the impact fee process remain efficient.

**Sec. 33E-18. Road Impact Fee Deferral For Certain Land Use Types.**

- (A) Notwithstanding anything in the code to the contrary an applicant for a building permit requiring payment of a road impact fee may request a deferral of road impact fee payment for one-half (1/2) of the assessed road impact fee for a period of up to three (3) years subject to the following terms, conditions, requirements and limitations:

\* \* \*

- (2) As condition of deferral of road impact fees pursuant to this section, the owner of the property that is subject to the road impact fee shall execute a voluntary lien securing payment of the deferred portion of the road impact fee on a form provided by the ~~[[Director of]]~~ >>County<< Public Works >>Director<< ~~[[& Waste Management Department]]~~ and filed in the Public Records of Miami-Dade County.

\* \* \*

- (10) The ~~[[Director of]]~~ >>County<< Public Works >>Director<< ~~[[and Waste Management Department]]~~ is authorized to foreclose on the lien for any deferred impact fees including and accrued interest that remain unpaid for more than one hundred and eighty (180) calendar days beyond the date when deferred impact fees are due and may assess reasonable fees associated with the foreclosure of the lien and collection of the road impact fee payment including reasonable attorney's fees and court costs.

- (B) The ~~[[Impact Fee Section of the Regulatory and Economic Resources Department]]~~ >>County Planning and Zoning Director<< shall provide an annual report on the status of this program to the Board of County Commissioners.

\* \* \*

**Section 2.** Chapter 33H of the Code of Miami-Dade County, Florida, is hereby amended to read as follows:

**Chapter 33H PARK IMPACT FEE ORDINANCE**

**Sec. 33H-3. Definitions.**

The definitions contained in Chapters 28 and 33, Code of Miami-Dade County, Florida, shall apply to this chapter except as otherwise provided in the following definitions:

**Sec. 33H-4. General provisions.**

All residential development is deemed to create an impact and therefore an increased demand for public facilities including public open space, park and recreation facilities. As such, the cost of new public facilities should be borne by new users to the extent new use requires new facilities. Therefore, any application for a building permit within unincorporated Miami-Dade County enabling the construction of residential dwelling units on or after the effective date of this Ordinance shall be subject to the imposition of park impact fees in the manner and amount set forth in this chapter. All Park Impact Fees are due and payable at the same time as the Road, Fire, or Police Impact Fee is paid.

\* \* \*

- (b) >>Payment shall be made in a form acceptable to the County Planning and Zoning Director. The Zoning Director may charge a nonrefundable convenience fee to cover any transactional costs imposed by the institution processing the form of payment. Notwithstanding any other provision to the contrary, the payment amount due shall be based on the fee in effect on the date the plans filed with a building permit application are submitted to Miami-Dade County for impact fee assessment.<< All fee payments shall be made before a residential building permit is issued.  \text{(\$0.90)} \\
 + \\
 \text{Base Fee} \\
 \text{(\$600.00)} \\
